

Do You Have Trouble Breathing?

Discover the Pulmonary Rehabilitation Program Center for Asthma, Allergy & Respiratory Disease

Nationally-Recognized Leader in Research & Innovation

“I have severe allergies and asthma and was constantly tired. I couldn’t even lug the groceries in from the car without getting winded. Dr. Windt started allergy treatment and recommended pulmonary rehab. In just a few weeks, I noticed a huge difference. I’m not tired or winded. I’m doing things I never thought I could do. I can hike with friends and keep up with my kids. At 43, it’s a whole new life.”

— Tracy Hall

Breathe Better, Live Better

Do you have: COPD • Asthma

• Obstructive sleep apnea • Other breathing issues?

We Can Help!

- Rehab programs customized *for you*
